

JSC "UZBEKISTAN RAILWAYS"

**TASHKENT INSTITUTE
OF RAILWAY ENGINEERS**

FOREIGN ENTRŲE GUIDEBOOK

**RELIABLE
WAY TO YOUR FUTURE**

In modern conditions, the role of the transport sector is growing. FIRE is the only educational institution in the country the main task of which is to train highly qualified personnel for the railway industry. The Institute with its 90-years history carries out an honorable, but at the same time very responsible, activity for solving the vital problems of transport. Graduates of the Institute design and build new railways, grandiose bridges and tunnels, create new wagons and locomotives, transport millions of tons of cargo, serve passengers. The main and priority task of the Tashkent Institute of Railway Engineers is the training of students in accordance with the requirements of the world standards, the training of specialists with high knowledge and skills who in the future will ensure high-quality and reliable operation of the entire transport industry.

There are 4 faculties in the institute, in which over 300 teachers, including academicians, professors and associate professors, teach. They teach students based on their experience and skills.

The Tashkent Institute of Railway Engineers guarantees your education in the future as competent and competitive engineers, and invites applicants from foreign countries wishing to get education. Welcome to FIRE, our doors are always open for you!

Rector of FIRE

Marufdjan Khalikovich Rasulov

GEOGRAPHICAL LOCATION

2

Tashkent Institute of Railway Engineers is located in a cozy and convenient place in the Mirabad district of Tashkent, which the most directly refers to the railway industry. In this area there are the Central Railway Station, the largest enterprises of JSC "Uzbekistan Railways", Palace of Railway Workers, Tashkent Professional Railway College, railway ticket offices, medical institutions of railway workers, "Locomotive" hotel, dispensary "Sikhatgoh". It was the location of the main railway facilities that caused the district to be called the railway area. Suitable transportation system allows students and employees to quickly and conveniently reach the institute from any part of the city. The immediate vicinity of the railway station provides students with the opportunity to travel conveniently to their native places during long vacations.

The necessary facilities have been created for the quality education and recreation on the territory of the Institute. Beautiful landscape, a grand fountain at the entrance is delightful addition to the entire historical ensemble of the building, and recreational facilities and canteens create coziness and favorable conditions for leisure.

TIRE ASSETS AND FACILITIES

3

FACULTIES

4

01

ELECTROMECHANICAL

1. Locomotives and locomotive equipment.
2. Wagons and wagons equipment.
3. Electric transport and high speed electric rolling stock.
4. Electricity supply of railways
5. Physics

02

ECONOMICS

1. Economics and Management.
2. Accounting and audit.
3. Information systems at railways
4. Social humanitarian disciplines.
5. Languages

03

CONSTRUCTION

1. Buildings and structures construction
2. Track construction and track equipment
3. Bridges and tunnels.
4. Engineering communications and systems.
5. Higher mathematics.
6. Informatics and computers graphics.
7. Construction mechanics.

04

ORGANIZATIONS OF TRANSPORTATION AND TRANSPORT LOGISTICS

1. Operation of railway maintenance
2. Transport logistics and service.
3. Automation and telemechanics at railway transport
4. Personal and social safety.
5. Electric communication and radio

THE INTERNATIONAL COOPERATION

5

Aiming to providing enterprises and educational institutions of JSC "Uzbekistan Railways" with specialists and scientific and pedagogical staff meeting the requirements of market transformations and prospects for social and economic development of the railway sector, technology and advanced technologies, it has the practice of targeted training of personnel. **TIRE is a member of International Association
of Transport Universities of
Asian-Pacific region (IATU APR)**

6

3 research laboratories

- Materials Science and Welding
- Track and track equipment
- Automation, telemechanics and communication

Scientific journals activity

- According to the Resolution of the Presidium of the Supreme Attestation Commission of Uzbekistan, the scientific and technical journal "Vestnik TashIIT" is included in the list of scientific journals on technical subjects

Highly qualified professors

- 21 Doctors of Sciences - Dsc
- 77 candidates - PhD
- including more than 40 PhD candidates study and work abroad

Preparation scientific personnel

Specialized Council for the Defending of Candidate theses PhD

Research grants

25 grants in total of 1 000 994 120 soums

TRAINING OF FOREIGN CITIZENS

8

Annually TIRE arranges admission of students from foreign countries. Nowadays citizens of the Russian Federation, Kyrgyzstan, Tajikistan, Kazakhstan, and Turkmenistan are studying at the Institute. All the rights and duties that students of Uzbekistan enjoy are also provided to students of foreign countries.

Eshmurodov
Sunnatjon Ma'murjon Ugli
Russian Federation
*"The right choice is made.
TIRE is my Almamater"*

Umirov
Okdem Rustamovich
Turkmenistan
*"It's the most prestigious technical
institute in Uzbekistan and the
diploma is recognized in all
countries of the world"*

Nishanov
Oybek Dilshodovich
Russian Federation
*"My parents are graduates of TIRE.
I continue the dynasty"*

Khodjaev
Naimidjon Numonjonovich
Tajikistan
*"Qualitative education, highly qualified
professors. All these are provided by TIRE"*

I. Eshamkulov
Khikmatilla Askarbekovich
Kazakhstan
*"Institute it's a place where
you can obtain reliable
education, continuity
of railway traditions"*

Atabaeva Zalina Khashirbekovna
Kazakhstan
*"With the diploma of TIRE the
horizons of the future are open"*

Alizoda Sarvinoz
Russian Federation
*"Institute is a place where
professionals realize their activities"*

OUR CONTRIBUTORS

9

The Tashkent Institute of Railway Transport Engineers is the only training center for the railway industry in the country. In the course of its history, the Institute has trained more than 60,000 professionals who conduct fruitful work in many social and economic sectors not only in the Republic of Uzbekistan, but also in other countries of the world. A good name and glory of the institute is in the practical affairs of its graduates. Among the graduates there are Heroes of Uzbekistan, bearers of Orders and Medals, international awards.

Today graduates of the institute are the leaders of the republican, regional large enterprises, projects, higher educational institutions. Scientists and graduates direct the design and construction of new railways, metro lines, major bridges and tunnels. Many objects of the railway industry of the CIS countries, Israel, USA, Canada, and Australia were designed by graduates of TIRE.
